Objective:

A Computer Science Engineering student eager to start a professional career, learn from experienced developers, and apply my skills to solve real-world problems in a team-oriented environment. Strong interest in software development with hands-on experience through academic and internship projects.

Academic qualification:

Sri Vasavi Engineering College, Tadepalligudem (2022-2026)

B.Tech – Computer Science and Technology (persuing) | CGPA – **8.96** | Percentage – **82.1%**

Sasi Junior College, Tadepalligudem (2020-2022)

Inter – MPC | Marks – **940** | Percentage – **94%**

Z P High School, Jagannadhapuram (2015-2020)

10th Class | Marks – **542** | Percentage - **90%**

Technical Skills:

Languages: Java, C++, Python

Web Technologies: HTML, CSS, JavaScript, Django, React.js, Springboot.

Database: MySQL, SQLite

Tools & Platforms: Git, VS Code, Windows

Others: Problem Solving, Data Structures and Algorithms

Projects:

1.SmartGradeX (Final Year Project): Developed an AI-based exam evaluation system using OCR and NLP for automated, bias-free scoring; reduced evaluation time by **90%**. (Django, Python, spaCy, OpenCV)

2.FixItNow (Infosys Internship): Built a full-stack neighborhood service booking platform with real-time chat, location-based search, and role-based dashboards. (React, Spring Boot, MySQL)

3.Scholarship Recommendation System: Created a student-scholarship matching platform with application tracking and notifications. (Django, JavaScript)

4.Secure Java Chat Application: Implemented a client-server chat system with secure login and private messaging. (Java, Socket Programming)

5.Weather Forecast Web App: Designed a responsive web app displaying real-time weather data using APIs.

Internships & Workshops:

1.Infosys Springboard Virtual Internship 6.0 (2025):

Worked on a full-stack service marketplace project using React.js, Spring Boot, and MySQL.

2.ADSA Internship Training – Summer 2025:

Intensive training focused on advanced data structures and algorithmic problem solving.

3.Git & GitHub Workshop:

Hands-on experience with version control and collaborative development.

Certifications

1.Java Full Stack Development – Infosys

2.Azure AI Fundamentals (AI-900) – Microsoft

3.Salesforce Certified Agentforce Specialist – Salesforce

Achievements & Activities:

1. Participated in **Smart India Hackathon (SIH)** and multiple college-level hackathons.
2. Served as **Class Representative (CR)** throughout B.Tech, handling academic and student coordination.
3. **NSS Instructor** for two semesters, mentoring juniors and contributing to social initiatives.
4. **Student Coordinator** for department fest *Tech Euphoria*; organized technical events.
5. Active member of the **Black Box Club**, involved in technical discussions and workshops.
6. Participated in Zonal level Sports competition and several cricket tournaments
